# The Changing Brain:

## Exploring Personality & Behaviour Change with Dementia

Changes in personality and behaviour are common symptoms for people living with dementia. Join our informative webinar as we explore the changes caused by dementia, ways to understand behaviour changes, and the impact on caregivers. We will share local programs and services available in your community, including a unique educational program called UFirst! for Care Partners® that provides training for family and friends who are directly supporting someone with behaviour changes as a result of dementia or other cognitive impairment.

Register for a chance to win an OCO water bottle! Learn more at Eventbrite.
